KEY: B--Breeding in Park. P--Possible breeding. O--Observed only. C--Common in Park. U--Uncommon, sparse, hard to locate. R--Rare, reported fewer than 5 times. L--Lower riparian areas only, some presumed due to close proximity of sightings just outside the Park borders. M--Migrating species seen sparodically from Sept-May. N--Not seen within Park boundaries by this compiler, but reported by other reliable persons. Note: Other species not listed have been observed during migration or flyover, but are not listed due to insignificance or lack of evidence. This document may be copied and/or distributed free of charge. Compliments of "The Friends of Mt. Spokane". Photographs by Ron Dexter
